

Our Services

DELIVERY AND INSTALLATION

We are committed to giving you an exceptional experience. Our D&I service allows you to sit back and relax, while we efficiently deliver and install your furniture - you are the centre of this process.

With our experienced fitters overseeing the whole process from beginning to end, there's nobody who can install our furniture better than us. Once you have placed your order, we will deliver and fit within 10-15 working days. We guarantee you the install will be stress-free by implementing the following practices:

1. All drivers will be equipped with hand sanitisers, face masks and disinfectant wipes, which will be used prior to delivering all goods. All delivery staff will maintain a safe distance of more than one meter from your staff or clients whilst delivering.
2. Once you are happy, all packaging is disposed of correctly and recycled where possible
3. A member of our experienced D&I team will then offer you a complimentary product demonstration, to ensure you are confident and happy with your new

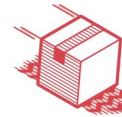

products. It's better for everyone when things go smoothly. Please ensure that:

- You have considered the **3 Ps**: the **POSTCODE** of the delivery and install location, what **PRODUCTS** it is that you require any **PROBLEMS** we may run into with the install (for example, no lift or restricted access)
- You carefully consider any special security requirements
- You provide on-site contact details, as you will receive a delivery date and time slot via text or email. The driver will also call on the day

DELIVERY SERVICES

We have several delivery services available, all tailored to you and your requirements. If you need any more information about any of the services outlined below, please contact our Sales Team, and they will be delighted to assist you.

Space Plans and CAD

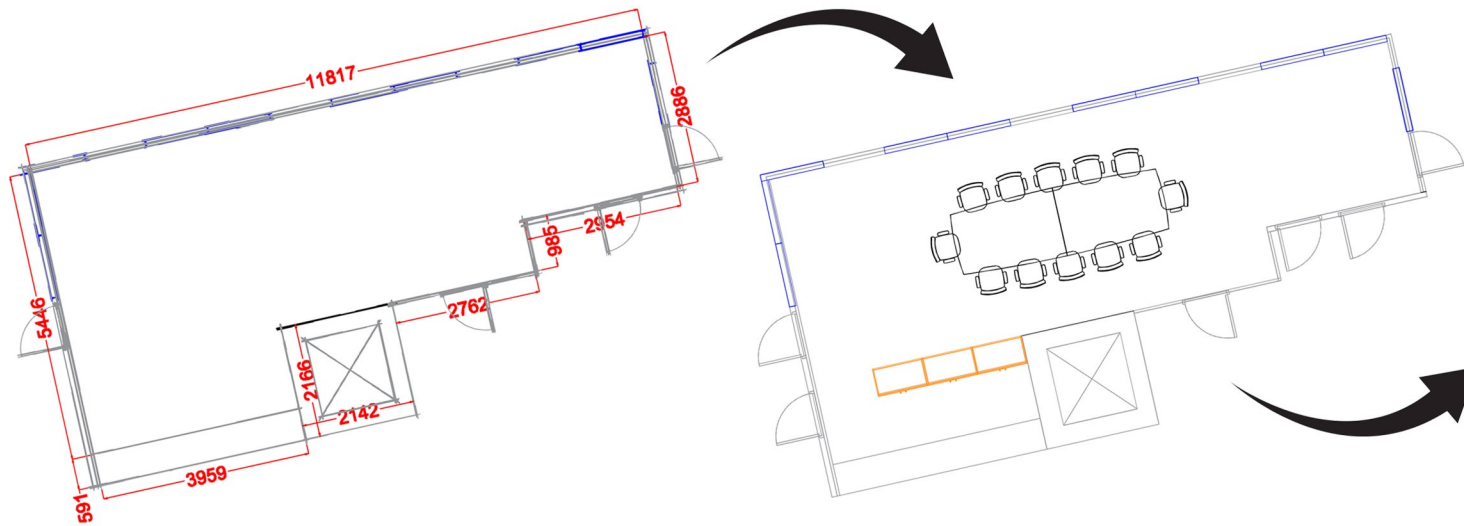

Correct planning ensures you are getting the most out of your workspace. We offer a space planning service which utilises the maximum capacity of your workspace safely and efficiently.

2D Plans

Our 2D plans turn your measurements into a well thought out working area to suit your particular requirements. Once your furniture plan is complete, we can be as detailed as you need and display network points, lighting, heating, power, and anything else you may require. Want to hang on to a few things? Our 2D plans can show a mix of old and new furniture designed by our expert team

Our experienced team use the latest software to ensure a full planning service, from site surveys and 2D plans to walk-through 3D visualisations. Just give us your measurements, and we will create and suggest possible layouts to enhance your existing office space.

3D Renders

We can then take the 2D plan a stage further by adding carpet and wall finishes, together with colour ideas to suit your corporate identity - or build on your ideas. Once created we can produce a 3D visualisation, which enables you to see the result in a clear and concise way.

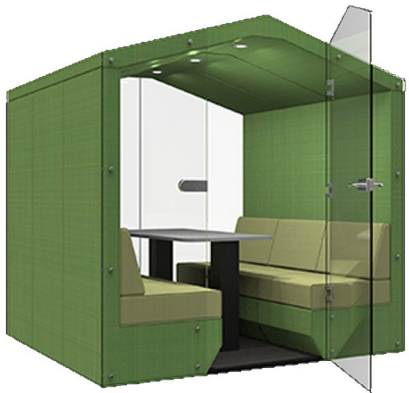

Aura One

Fully customisable, bespoke storage system with no limitations

Aura Two

The Aura Two collection offers its users the chance to move away from the traditional look and feel of the office, creating breakout spaces that are open, comfortable and uplifts its users mood and productivity levels

Aura Three

Perfect for office breakout, reception and lobby areas; Aura Three combines simplicity and elegance in design with the warmth and natural ambience of high finish solid oak.

By cleverly marrying steel connectors to beautiful wooden legs, Aura Three creates a stunning platform to compliment an expansive scope of table top designs.

The Aura Three table family offers the full versatility of both 3 and 4 legged versions (3 different heights) and even boasts it's very own soft-sleeve fabric cable riser as an optional accessory

Aura Four

The Aura Four product has a robust and sturdy system designed around the spigot method of assembly. Introducing an intermediate leg to the Table or Poseur range extends the possibilities to build longer configurations where the overall length can be infinite. The Poseur with intermediate leg uses an additional triangulation support to achieve great stability.

Breakout Booths

Stools

The Stool family has been designed as a simple and robust collection of seating to complement the Aura Four product range and occasional tables

The range includes a high & low stool, on the high stools you can choose between a wire or tubular foot rest, they have a luxury seat pad and optional fabric covered button with a robust mild steel powder coated understructure.

Playful stunning pieces fit for any environment.

Planters

A mobile planting system designed to facilitate the introduction of biophilia into the workplace. Available in four pre-set designs and supplied with the option of Oak MFC cladding slats and artificial plants; the PLANTS range features both upper and lower level waterproof planting troughs, with the lower level being height adjustable to accommodate differing height plants. Supplied with castors for mobility as standard.

Biophilia (noun)

bio•phil•ia

: a hypothetical human tendency to interact or be closely associated with other forms of life in nature

: a desire or tendency to commune with nature

Alternative Storage Solutions

Open mobile storage caddy with drag handle and wooden front

Under desk fixed personal storage unit

Mobile storage with seat pad and laminate front
