TABLE OF CONTENTS

SIT-STAND

BENEFITS

Wellbeing and ergonomics go hand-in-hand in workspaces that prioritise employee mental and physical health.

Choosing furniture and accessories should go beyond aesthetics and cost. Well-designed, properly engineered products are essential for promoting positive employee mental and physical health, which in turn boosts productivity and presenteeism. Our Sit-Stand Collection has been designed to enhance workplaces.

What are the benefits of sit-stand desking?

Healthier Heart

People who sit for more than 8 hours a day, double their risk of developing heart disease compared to those who sit for less than 4 hours a day.

Fight Obesity

Prolonged sitting slows down the metabolism, promoting fat accumulation. Standing up intermittently at a sit-stand desk decreases the risk of obesity.

Better back health

Studies show that using height-adjustable desks can dramatically decrease chronic back pain caused by inactivity and prolonged sitting.

Reduce stress & fatigue

People who sit for more than 8 hours a day, double their risk of developing heart disease compared to those who sit for less than 4 hours a day.

Live longer

People who sit the most are at a 49% greater risk of dying early. Reducing sitting time to 3 hours per day can raise your average life expectancy.

Improve circulation

Improve blood-flow by alternating between ergonomic office chairs that promote dynamic movement when seated and adjustable sit-stand desk.

Less stiffness

Leg and glute muscles are more active and therefore stronger, in users who alternate between sitting and standing which reduces long-term discomfort and strain.

Smarter thinking

Dynamic working encourages oxygen-rich blood to be pumped around the body, reversing the effects of inactivity where brain function slows down.

WHY

LEVANTA?

Dual motor offers quiet, fast & seamless height adjustment.

Six-access anticollision software for optimum safety

Superior quality desks backed by an industry leading 10-year guarantee.

Programmable control panel stores up to 3 predefined heights on Leap & Zoom Desks

Environmentally conscious - for every desk purchased, we will plant a tree.

Low Consumption: after 10 sec. display turns off for low consumption <0,1w.

Touch-sensitive controls that are programmable.

Transition from a seated position to a standing position within seconds.

GreenTag Certified and WEEE Scheme compliant.

Certified EN 527-1:2011 & EN 527-2:2016 including motor durability test.
